KNOWASTE NEWSLETTER SUMMER 2014

Hi,

2014 has been an exciting year for Knowaste. We have narrowed down the search for our new Absorbent Hygiene Products (AHPs) recycling facility to just two possible sites. You can find out more about our search and other Knowaste developments in the stories below.

If you have any questions about Knowaste or the recycling of AHPs, please do get in contact and I will be happy to provide you with further information.

Paul Richardson,

Business Development Director UK

paul.richardson@knowaste.com

European Commission wastes no time increasing recycling targets

On 2 July 2014, the European Commission adopted a legislative proposal to review recycling and other waste-related targets in the EU.

Read more about the changes and how they compare to other country's targets [here](#).

Knowaste closes in on the perfect facility

Read our latest news story for more information on our search for the perfect AHP recycling facility.

Knowaste appoints technical support advisers

Knowaste has announced the appointment of NT Associates to provide technical support in the company's design and specification of the new processing plant.

2014 Recycling and Waste Management exhibition

Knowaste will be exhibiting at the Recycling and Waste Management Exhibition on stall no. 4L20-M21 between 16-18th September.

For more information please visit the RWM Exhibition website.
